Re: Positive Impact of the Feeding Program to the School Children

Honorable John Rivas,

The school community is so grateful to the benefactors for the support they gave to our program. Indeed, this brings a lot of benefit such as:

1. **Improvement of Attendance** – Usually pupils do not report to school on Fridays due to lack of sustenance, now they look forward to Fridays as feast day.
2. **Increase in School Population** – Before the program, our enrolment was 385 at the start of the program, it increased to 418 and now it is 448.
3. **Model of Opportunity** – to those having much to share to the needy.
4. **Investment** – for the welfare of the community and its future leadership.
5. **Infusion of Values** – Good manner and right conduct; cleanliness; observance of proper order; social graces; building of confidence.
6. **Spirituality** – Being thankful to the Great Provider.
7. **Gratitude** – for the generosity of those expressing their love and concern to those who have less in life.

Our thoughts for the following:

1. Hon. John and Edna Rivas
2. Ms. Mila Villavicencio
3. Mrs. Pam Erfurt
4. Hon. And Mrs. Keith Aitken
5. Other benefactors

With our prayers and gratitude.

Very truly yours,

LEO M. MANAGUIT
